# Spectrum Glazes

All Spectrum products use ceramic frits and stains as their principal ingredients for superior appearance and consistency of results. Spectrum also uses a high percentage of stains in their recipes for more intensity, brightness, and depth of color. We stock these glazes in pints. Items marked with an asterisk (*) have a change in the iron oxide used in these glazes. The substitution looks darker in the jars but will NOT affect the glaze performance (this change affects batch #45260 and higher). Metallic glazes are NOT recommended for food surfaces!

## Gloss Glazes

| | Pint |
|---|---|
