

## GR POTTERY HUMP MOLDS

These Hump Forms are wood drape molds in a variety of shapes and sizes that are ideal for making dinnerware and serving platters. They are cut and beveled fiberboard which make them durable and economical. Also available is a wheel attachment with spacer pin to throw hump forms on your wheel! Wallies have straight sides rather than the beveled sides of the other shapes. The spacer pull assists with removing Wallies from the clay.

## SLABMAT

A smooth alternative to canvas: this non-woven material is used for pressing slabs without the textured weave impression created from canvas.

- The manufacturer recommends using a blunt steel fettling knife for cutting clay directly on the mat. Kemper's F96 and F97 (on page 94) are perfect for this.
- Use cornstarch as a release powder if you find that your clay sticks. Use separate pieces for different colors of clay to avoid contamination.
- For slabs longer than 23" on a slab roller, use two full-length sheets with the clay sandwiched between them.
- To cut your SlabMat into smaller sizes, use an Exacto or utility knife.
- Store SlabMats flat or at most - loosely rolled.
- You can use SlabMat on one side of the clay and canvas on the other for slabs with smooth and textured sides.

SME..... Economy Pack 12 x 14" (set of 12).....	\$53.00
SMS..... Handbuilding 14 x 16" .....	\$9.50
SMMS ..... Mini Slab Roller 14 x 50" .....	\$21.50
SMM..... Standard Slab Roller 22 x 50" .....	\$30.00
SML..... Wide Roller 30 x 50" .....	\$49.50
