Paasche Glaze Spray Gun

This spray gun is a general sprayer and great for basic coating needs. It will handle thicker paints than the smaller pen type airbrushes. Spray pattern range is 1 to 2 inches. Operating on relatively low pressure of 20 to 45 PSI, the PH300 falls between airbrushes and spray guns. It efficiently sprays glazes, fixatives, medium lacquers, varnishes and enamels. Requires a minimum ¼ HP compressor. Price includes a 10' hose.

PH300..... Spray Gun..... (MSRP \$74.50)..... **\$65.50**

GLAZE SPRAYER

Use the power of your breath to quickly and easily spray glazes or oxides on your clay work! Inside the metal container is a tiny tube from the bottom to the top. When you blow through the top pipe, your breath creates suction that pulls the liquid up through the vertical tube, and the liquid exits the sprayer as a mist.
