**Playing with only Georgie's BLACK and WHITE Glazes:**

Six plates are base coated (2 coats) with a white glaze. Blacks are applied over the top - vertical bars are done using glaze inlay, circles are wax resist design, then black applied (1 coat) over the top.

**Order of Application:**

1. EZ012 Black (Duncan stain/oxide)
2. PG602 Black Patent
3. GLW44 Black Matte
4. PG602 Incredible Black
5. GLW45 Plum Black
6. GLW47 Kalamata Black

Notice how the character of each glaze reflects it's make-up when interacting with the base glaze!

GLW12 Eggshell Wash

GLW37 Pure White Matte

PG601 Perfect White

GLW45 Plum Black

PG635 Black Patent

GLW44 Black Matte

GLW47 Kalamata Black

PG602 Incredible Black

Black glaze is applied with 2 coat on the two plates at left.

White is applied as glaze inlay with verticle bars, circles are wax resist.

**Order of Application:**

1. PG601 Perfect White
2. GLW35 Pure White Matte
